Introducing...

HAZAK

HOKMAH—WISDOM ZIKNAH—MATURITY
KADIMAH—LOOKING AHEAD

People 55 and older are the fastest growing group in North America. Currently, more than 30 percent of the average Conservative congregation's membership is made up of this age group and studies indicate that 35 percent of all American Jews will be members of this demographic within the next decade.

Hazak, the United Synagogue of Conservative Judaism's organization for mature Jews, is designed to meet the social and religious needs of this growing population segment.

Hazak membership provides:

- Camaraderie and social interaction
- Intellectual stimulation and travel opportunities
- Religious guidance
- Centrally directed programming and guidance by professionals

A typical mature Conservative Jew is generally someone who is intellectually astute, interested in Jewish matters, physically active and eager to participate in organized activities.

Membership in Hazak affords congregational members a social environment in which friendships can flourish, mutual concerns are shared, interactions occur and religious experiences are enhanced.

With the USCJ's central direction and programs, your congregation will be provided with all the information, guidance and support you need to form and maintain an active Hazak chapter. Groups are given the necessary tools to successfully organize year-round social, educational and religious activities geared specifically for the mature member.

Hazak synagogue chapters are forming now throughout North America. Is your synagogue ready to join?
