---------------------------	------------------------

VII. Personal Statement:

"She believed in dreams, all right, but she also believed in doing something about them. When Prince Charming didn't come along, she went over to the palace and got him."

- Walt Disney, speaking of Cinderella.

When I quote this I am NOT, I repeat, am NOT talking about just any "him", I am obviously talking about ARVOT! Arvot is where I became myself; I connected with Judaism and became the girl I am today. USY is something you put into, and it gives back. I want to give back to each and every one of you. Being Vice President is not just being on Sub-Regional Board, it is a chance to make a difference in your experience as a whole within USY, which is my goal exactly. Whether it is sending an email to inform all of you, planning Arvot events, or getting to know you, it's one more opportunity I have to be a part of making USY better for you.
